Home Learning Pack for 5th & 6th Class

Hi everyone,

Pie Charts! Well done to everyone who managed to create their own Pie Charts in Maths this week. It's one of the trickier topics in Maths so well done and a huge thank you to the Mams and Dads who helped out.

We're almost there now folks so let's just keep the motivation going and complete the last few weeks of tasks. The good news is that any Maths left at this point is pretty straightforward thankfully. We are now into another Bank Holiday week so there will be a little less work to do next week. For the next few weeks we thought it would be a good idea to combine some nice ideas with 3rd and 4th class. Miss Delestar and I have come up with joint English and Geography activities this week.

There is one key task this week for 6th class students. The task is to look at a video about transitioning to Secondary school. This will not appear as a task for 5th class.

Thank you to the parents that have been in touch with some lovely feedback on the whole distance learning experience.

As always, the activities I list are **suggestions – I do not expect that all are completed.** Please do what you can. If you find that there are too many activities, go for the ones marked **key tasks.**

Please remember that if you have any concerns or queries, I can be contacted via Seesaw or via the school email – office@njs.ie or principal@njs.ie. Ms Mc Sweeney, all of staff and I are here to help and support everyone in any way we can.

Best wishes to everyone and hope that you all stay safe and well.

Mr. Busher
